# Mini 'LNL' (Low Noise Level) Drying System

<b>Configuration 'MINI LNL'</b>	MINI Low Noise Level
<b>Product Category</b>	All bottles/cans/pouches etc
<b>Application area</b>	Drying specific or complete areas on low to medium speed lines

The 'MINI LNL' system is a compact totally enclosed system where both centrifugal blower and the air delivery device(s) are completely contained within a robust stainless steel enclosure.

# Mini 'LNL' (Low Noise Level) Drying System

ACI's 'MINI LNL' drying system is a fully enclosed unit as both the 5MSI I Blower and the Airknives are housed within a sealed, robust acoustic enclosure. This not only protects the blower unit from water/spray contamination, but also attenuates noise levels below 80dB(A). Noise reduction (baffle tunnels) can also be added to exit and entry points of the enclosure to further reducing noise levels.

## 'MINI LNL' outline drawing:

### Other options:

These will include:

#### Air delivery devices

ACI can offer a number of alternatives to delivering the air to the product, including Stainless Steel air knives, Can Tunnels, Neck and Cap Dryers.

#### Starters

ACI are able to offer a range of starters for all budgets.

#### Enclosures and pedestals

A number of mounting configurations/blower enclosures are available. Detailed advice can be given to customers on application by ACI's Technical Sales Department.
