

## Environmental Policy

Air Control Industries (an Employee-Owned Trust) is committed in its responsibility to protect the environment for future generations. The following policy outlines our strategy to ensure that we continually improve our environmental performance, and that all environmental matters within the scope of the business are addressed, with the aim of minimising the impact on the environment.

We will:

1. Demonstrate an intense sense of responsibility for people and the environment and ensure that this policy is communicated and implemented at all levels within the company. Where possible these values will be communicated to our suppliers and customers to encourage adoption of similar principles.
2. Comply with and meet legislative and regulatory requirements, applying where feasible the best available techniques in minimising the environmental impacts of our activities.
3. Minimise waste by evaluating product design, materials and operations to they are as efficient as possible.
4. Design, source, efficiently manufacture and ship products that minimises the impact on the environment, creating the minimal amount of waste possible, using recyclable products wherever possible.
5. Prevent pollution with continual monitoring of our work environment & procedures.
6. Ensure this policy is documented, implemented, and maintained.
7. Set and regularly review our environmental objectives and KPIs.
8. Ensure this policy is suitable for the application and environmental impacts of the activities, products and services that make up the business.
9. Work actively to increase environmental awareness through the company & encourage individual employees' involvement in environmental issues.
10. This policy will be available for the public to view via our website.

To achieve these objectives, it is the policy of ACI to maintain an effective business management system based on the requirements of BS EN ISO 9001, BS EN ISO 14001, 2014/34/EU and IECEx 02.
